

Academic Assessment Data

Below are the results from academic assessments carried out in Summer 2023 and in September 2023.

- The pink and red line averages show the scores of children nationally (and internationally) who take that test. The bars in the graphs refer to Churcher's College Junior School pupils.
- The results come from standardised testing for Cognitive Abilities (CAT), Mathematics and Reading (from providers [GL Assessment](#) and [Star reading](#)).

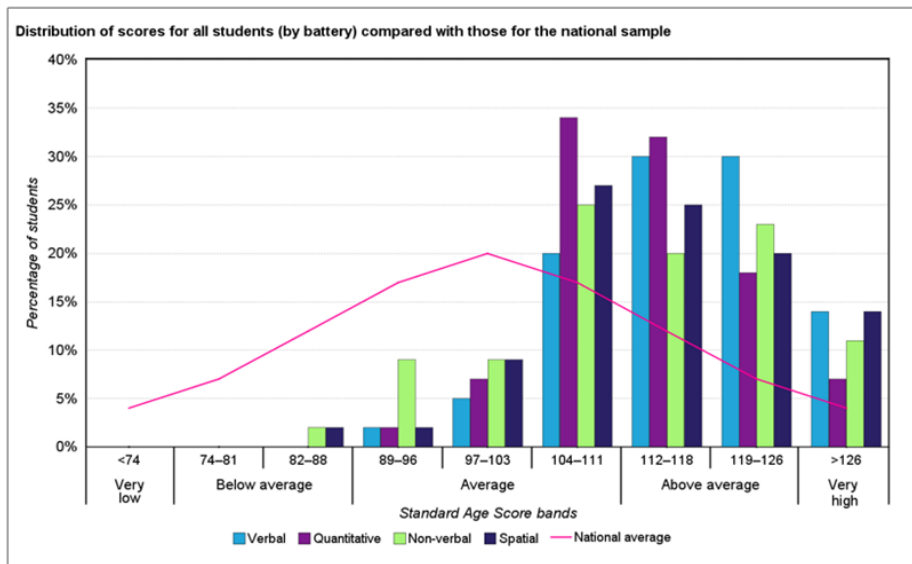

More testing data is available upon request, please contact the school office:

ccjsoffice@churcherscollege.com.

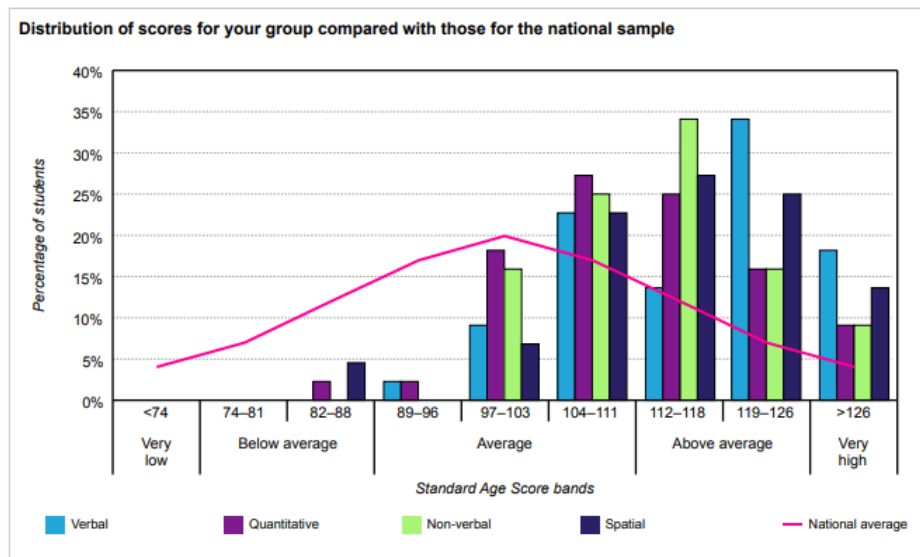

Cognitive Abilities Testing – Autumn 2023

This is a test which looks at four different elements to gauge overall brain and child development.

Year 5

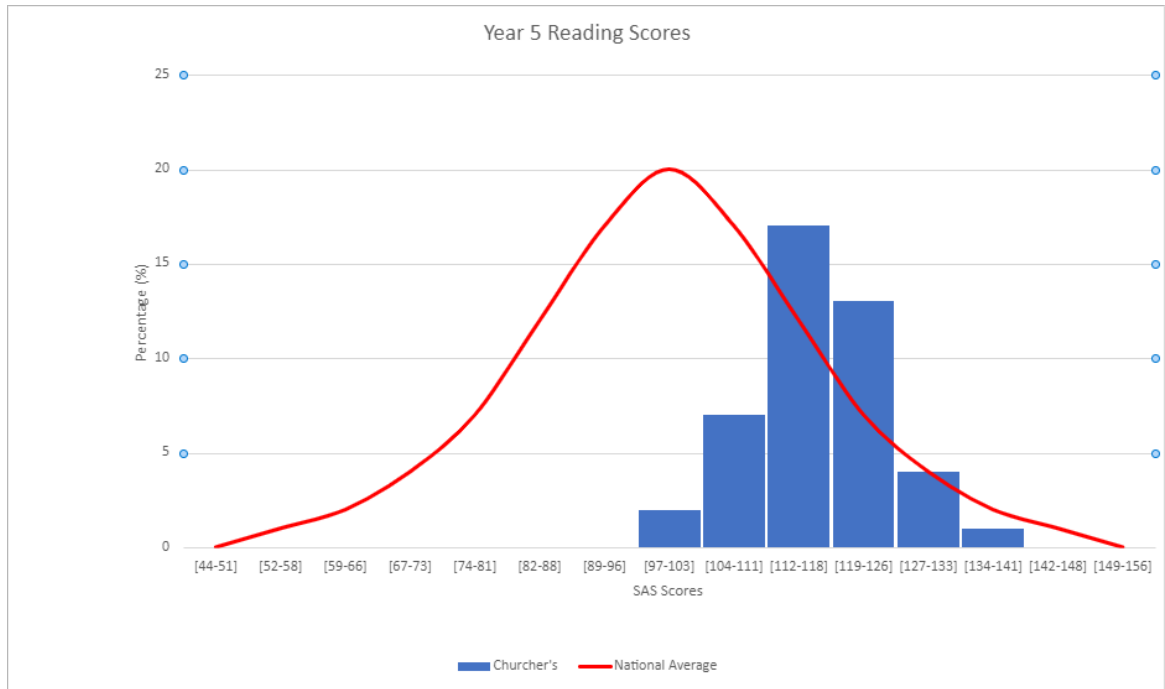

Year 6

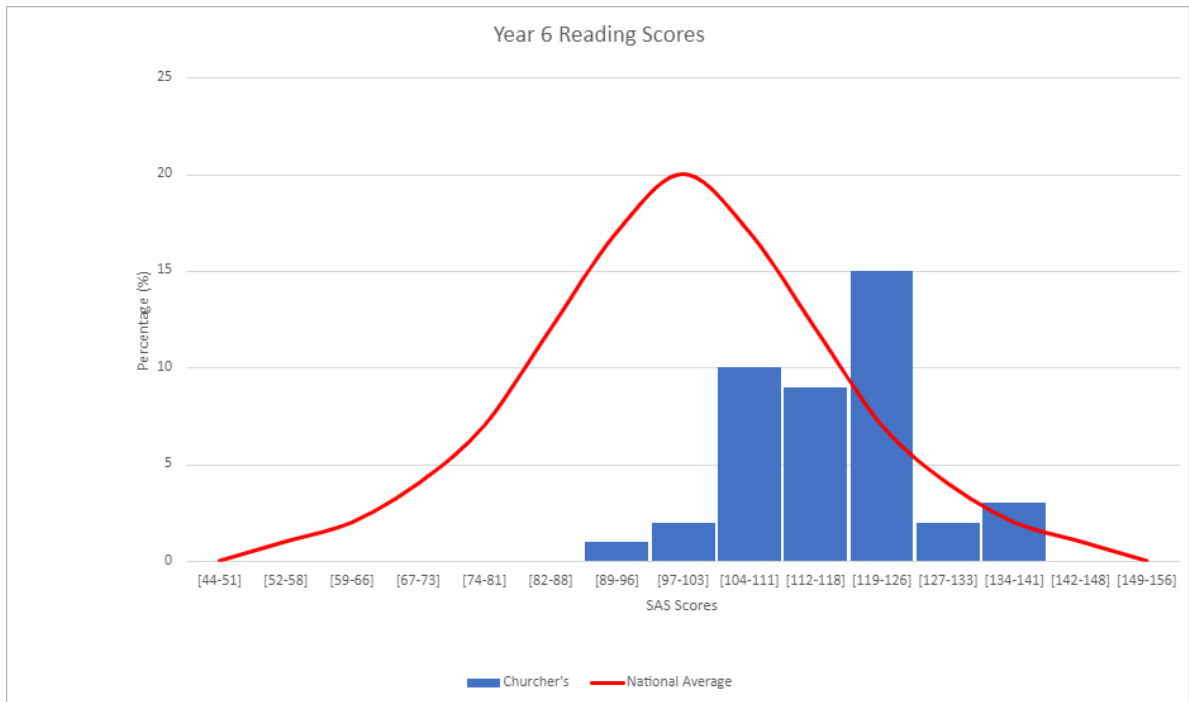

Reading Testing - Autumn 2023

Year 5

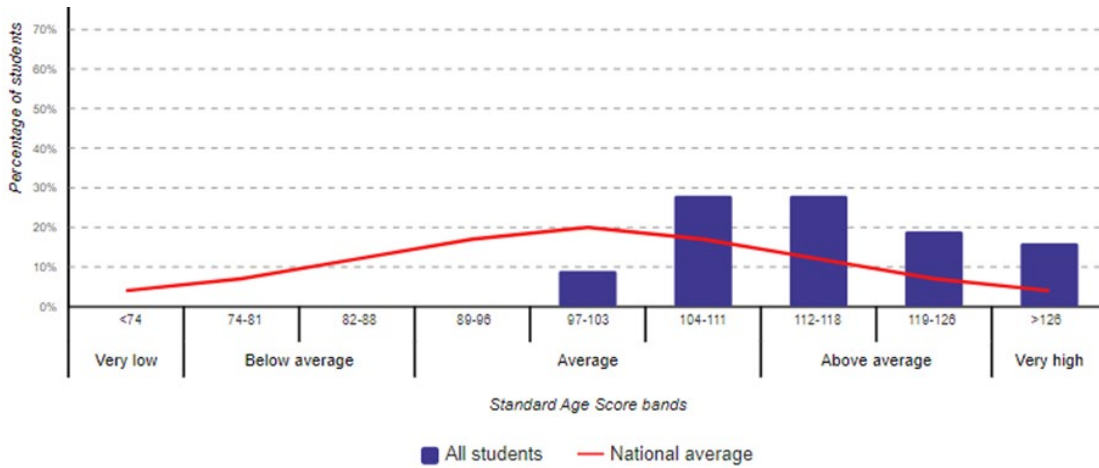

Year 6

Mathematics Testing – Summer 2023

Year 5

The table below shows the mean scores with confidence bands for the group against the national average.

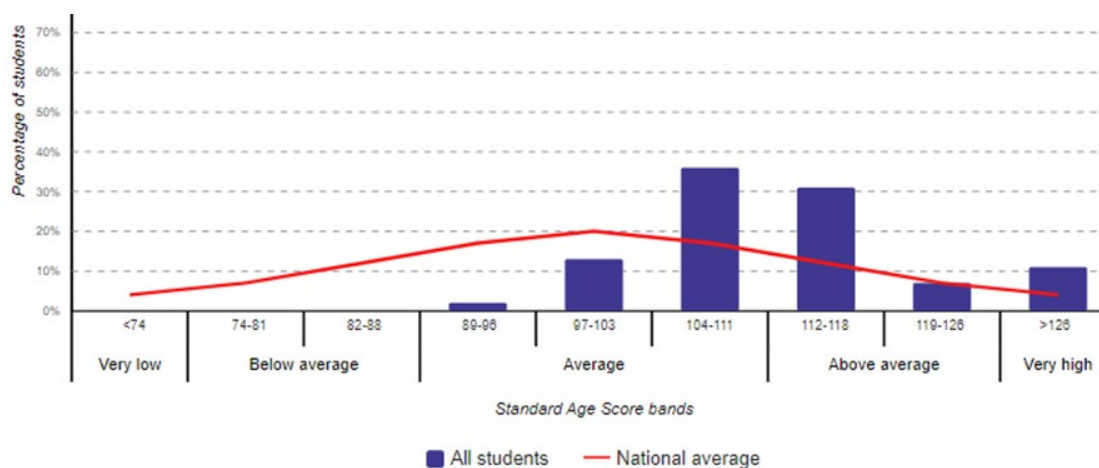

The mean Standard Age Score for this group is significantly above the national average.

The spread of Standard Age Scores for this group is significantly smaller than the national average.

Year 6

The table below shows the mean scores with confidence bands for the group against the national average.

The mean Standard Age Score for this group is significantly above the national average.

The spread of Standard Age Scores for this group is significantly smaller than the national average.
